PROJECTS

Resthere

(May - July 2024)

As a Full Stack Web Developer at RestHere, I collaborated to build a user-friendly accommodation booking platform using Next.js, React.js, and Tailwind CSS. By employing Agile methodologies, we created a clean, accessible interface, significantly enhancing user experience.

XYZ Company

(May 2024)

At XYZ Company, I independently developed new features using Next.js and TypeScript, integrating APIs with Axios and managing state with Redux Thunk. I applied Tailwind CSS and Chakra UI to deliver responsive, user-friendly interfaces, accelerating the launch of key functionalities.
